SLD ACTION: Notification of receipt of Form 471 after the filing window closed
Funding Year 5: 07/01/2002 – 06/30/2003

Date of Document: March 29, 2002

Applicant: Neches Independent School District

Form 471 Application Number: 325441

Billed Entity Number: 140738

CC Docket Nos. 96-45, 97-21

REQUEST FOR WAIVER OF FORM 471 DEADLINE

The Neches Independent School District is requesting a waiver of the due date of January 17, 2002, for the Form 471, which resulted in our application being filed after the 2002-2003 filing window closed.

The need for this request stems from the impact my personal health problems created for our whole district. The following is information to foster an understanding of our circumstances.

1. I am the technology director for Neches Independent School District.
2. We are a small, rural school district with two (2) campuses.

No. of Copies rec'd 3
List ABCDE

3. My duties include technology grant application and administration, Erate project management, network administration, hardware and software maintenance and troubleshooting, investigating technology purchase prices and placing orders. I am the only person assigned to these duties. I have a student assistant helping less than one hour a day.
4. My "personal health" problems began after the Christmas holidays, 2001.
 - I developed a very sore spot at the perimeter of the surgical site from a mastectomy performed five years ago. I didn't realize the impact this new "fear of cancer" was having on me psychologically, and therefore on the execution of my duties. If I didn't, my administration certainly was not aware of my dilemma.
 - During the two weeks prior to January 17 I also developed a respiratory infection; I worked most of that time in spite of a cough that seriously increased my pain.
 - To further cloud my thinking, during the same time that I should have been checking due dates and working to complete our Form 471 the Magistrate Virus hit our workstations and servers. I was distracted by the urgency of installing an antivirus software and cleaning the workstations and servers, as well as educating the staff about the new software.
 - On January 17, 2002, my gynecologist told me my pain was caused by a cracked or bruised rib, not by cancer.
 - On January 18, the day following my appointment, I realized I had missed our 471 due date.
 - Please note this is the first critical due date I've missed in thirteen years; this is not my normal behavior.

At this time I informed our superintendent that I had failed to file the 471 in a timely manner. Understanding some of my health issues, he called the SLD on January 22 to see if an exception could be made. He was told to file the Form 471 late and then to file an appeal when we were notified of our "out of the window" filing status. We are filing this Request For Waiver instead, as instructed by the SLD website.

Our discounted amount would be approximately \$17,500 for telecommunications and Internet access. No Internet connections are being sought. The requested amount is not large for SLD, but it is very important to our students since our budget is very tight.

My hope is that you will find special circumstances existed, through no fault of the district, which culminated in our filing late and that a deviation from the rules would certainly serve the public interest of our district.

Thank you for your time and consideration of this matter.

Yours truly,

Barbara Hudgens
